1. SIGNIFICANCE:

This briefing board depicts seven VC/NVA military strongpoints in the Dak To/Trí border area of South Vietnam.

2. LOCATION:

The enemy activity is located in the South Vietnam/Cambodia/Laos border area, 270 miles north of Saigon.

3. BACKGROUND:

The Associated Press reported that four North Vietnamese infantry regiments of the 1st Division moved into the jungles surrounding Dak To during September and October 1967. The 40th regiment, a heavy weapons outfit carrying rockets, mortars and perhaps 75 mm pack artillery, was split between North and South forces.

From hilltop observation posts the North Vietnamese could clearly see the Dak To special forces camp and airstrip, the small town and district headquarters, refugee camps and the barracks of South Vietnam’s 42nd regiment.

Two casual contacts on 03 November 1967 began the first activity. Under the enemy plan, one regiment was to attack on 05 November while another regiment moved into blocking positions across Route 14. Other regiments were in reserve, but the 40th was to open with rockets, move...
INTO MORTAR RANGE AND COVER THE MAIN BATTLE.

BY 11 NOVEMBER THE FIGHTING HAD LAPPED, BUT THE NORTH VIETNAMESE REPEATEDLY MORTARED THE DAK TO AIRSTRIP AND OTHER MILITARY INSTALLATIONS ON 15 NOVEMBER. THERE WAS LIGHT MORTARING OF THE AIRSTRIP ON 16 NOVEMBER.

THE PRESS REPORTS HAVE INDICATED THAT THE COMMUNISTS ARE TRYING TO REINFORCE UNITS IN THE AREA, AND RENEWED FIGHTING IS EXPECTED AT ANY TIME. THE PROXIMITY OF THE BATTLEFIELD TO THE CAMBODIAN AND LAO BORDERS AND THE PRESENCE OF TROOP RESERVES ACROSS THE FRONTIER WOULD MAKE POSSIBLE THE RAPID RESUPPLY AND REINFORCEMENT OF THE VIET CONG AND NVA TROOPS COMMITTED TO THE DAK TO AREA.

FOUR MILES SOUTH OF THE DAk TO AIRSTRIP OVERLOOKING THE ALLIED
HOLDINGS. THE LOSS OF HILL 1338, NAMED FOR ITS HEIGHT IN METERS,
DEPRIVED THE NORTH VIETNAMESE OF AN EXCELLENT POSITION FOR DEPLOY-
MENT OF ROCKETS AND ARTILLERY.
