VC AND LANG VEI TANKS: Of interest is comment by chief VC rep Hanoi that VC regular forces played decisive role at Lang Vei by cptrg US tanks and immed using them against Americans there. This is one way to explain presence NVN PT-76 tks in SVN.

TET OFFENSIVE: Info derived from cptrd prisoners in 4 CTZ would appear to indicate that offensive aimed at seizing/holding prov admin centers, with purpose of forcing GVN to negotiate coalition govt (Saigon 18584 reffers). Taken at face value, this is an ultimate-type objective which communists prob hoped to accomplish -- or to set in full motion -- as result of first assaults. Such an ultimate-type objective would appear to warrant quick renewal of mil atks to extent of remaining en capability. (See above Briefs.)

RECOVERY SAIGON: Are signs this underway with some progress being made.

NORTH VIETNAM

ROLLING THUNDER OPERATIONS 9 FEB: 77 sorties (30 USAF, 25 USMC, 22 USN) dest/damaged 0/18 gun psns, 0/7 stor areas, 0/5 road segs, 0/5 trks, 0/5 AAA sites, 0/3 trp concs, 0/2 bridges, 0/1 ferry, 0/1 port facility, 0/1 radar site, 0/1 SAM site, 0/1 trk pk. 

Tgt within 10 nm Haiphong: Cat Bi Afld. 

Other tgtts: Kep Afld; Uong Bi Thermal Power Plant.

ROLLING THUNDER 57 ALFA STRIKE: 16 USAF F-4Ds struck Phuc Yen Afld (JCS .6) 11.5 nm N of Hanoi; no BDA at drafting time.

SAM SITE DMZ AREA: 28 Jan photos show a field-deployed site, prob intended as temporary firing psn, in orchard just W of Ben Quang. 3 occ psns; heavily camouflaged. 15 Jan photos showed camouflaged revetment 4 nm NE of above site -- may be spt area for this or other SAM psns in DMZ area; transporter was atk, but no BDA available.

UNUSUAL AIR OPERATIONS: 2 IL-28s airborne 9 Feb for first time since 3 of these acft arr Phuc Yen 6 Feb. Flew north for an hour; may have recovered Gia Lam. They were avoiding US acft; no other info.

7 IL-14s (which also arr NVN from China 6 Feb) flew Gia Lam to Nanning on 9 Feb; some were involved in 7 Feb flights to triborder area of Laos/SVN/NVN. An 8th IL-14 still at Bai Thuong with engine damaged as result commie gnd fire that day. Purpose of tpt flights still unk, but detailed analysis of commo favors airdrop acfty. Such acfty would prob have incl high-priority ammo, wpns, medicines. They may also have been testing feasibility of air opns to south.

10 Feb 68
GEN GIAP: Tokyo press says he spoke at NK Emb reception 8 Feb (on NKA Day). He has done so in past. Speculation he may have been directing en forces in south, poss vic Khe Sanh, had been spurred by his absence from mid-Dec NVA Day celebration.

LAOS

BARREL ROLL/STEEL TIGER OPERATIONS 9 FEB: 109 sorties (84 USAF, 25 USN) dest/damaged 13/17 trks, 3/3 structures, 2/5 gun sites, 0/10 stor areas, 0/8 road segs, 0/8 trk pks, 0/8 trp concs, 0/4 AAA sites, 0/2 armored vehs, 0/1 ford, 0/1 POL stor area.

SITE 85: Est remains site could be atkd at any time. Some 7 NVA/PL bns in area have overrun several FAR psns recently and some en units within arty range of site. FAR reports 105-mm howitzers have been moved in to spt an atk; NVN air could also be used.

ACTIVITY IN SOUTH: En spreading propaganda he will atk towns 2 southern provs. Such tactics frequently used frighten FAR. Some atks expected soon, esp vic Saravane, but no evidence atks would be part of general offensive. Objective of atks prob to secure LOCs for NVN forces in Khe Sanh area.
