AIR SITUATION: Since 24 Oct Phuc Yen strike, some 21 MIGs have left NVN. NVN fighter force now in China est at 87 (21 MIG-21s and 66 MIG-15s/17s). (b)(3) 10 U.S.C. 424:3.3(h)(2)

About 8 MIGs remain in country (two 21s at Phuc Yen; two 21s and four 17s at Gia Lam). Apparent increase in MIG-21s over past few weeks may have resulted from undetected arrivals from China, assembly of craterd acft, or return to service of damaged acft. Neither complete withdrawal of acft from active ops nor mass return of force from China considered likely. No rpt no NVN MIGs noted flying combat msns from China. Most likely that a small MIG force will be kept in NVN to maintain the threat. (b)(3) 10 U.S.C. 424:3.3(h)(2)

POL: Seaborne POL imports Oct were 12,500 MT (up from the 7,000 MT of Sep). Sov tkrs carried almost all of it. Oct figure is below Jan-Sep 67 monthly average of 15,700 MT. POL imports thus far '67 are 198,000 MT, compared to 200,000 MT for all '66. Communist bottoms carried 155,000 MT; Free World ships, the rest. Air strikes on POL facilities have apparently had little effect on distribution of POL products. (b)(3) 10 U

USE OF HON GAI: For second time recently, a Sov mership carrying flour from Vlad has been diverted from Haiphong to Hon Gai. Apparently represents attempt speed foodstuffs to consumer. (Cam Pha and Hon Gai had been used almost exclusively as coal-loading ports.) Cgo unloaded at these ports can be moved over hiways and inland waterways; the flour will prob move via latter.
