REPORT ON 122-MM ROCKETS AND ATTACK ON DAK TO: 2 NVA soldiers claim that VC 200th Main Force Arty Bn is equipped with 82-mm
mortars and also 122-mm rockets. Previous intel on the 200th indicated it had 82-mm and 120-mm mortars. It is poss that an NVA arty bn arriving in SVN, prob in Apr, combined with the 200th to form 2 units -- one having 82-mm mortars and the other 120-mm mortars plus 122-mm rkt. One of the soldiers (from NVA 66 Regt) stated further that: 122-mm rkt, capable of delivering tear gas, would be used against Dak To during an atk sked for early Nov; all atkg units issued gas masks; NVA 32 Regt had supplied his regt with hvy weapons (prob meaning mortars). (Last point suggests that 32d may be used in assault role in any atk on Dak To, with 66th providing fire spt/reinforcements. (c)
