NHA TRANG ACTIVITY: Increased acty in Khanh Hoa Prov past 3 months by local sapper units in coord with elements of NVA 18B Regt seems to have focused on Nha Trang area. Prob objective is to support plans disrupt RevDev program/regain control of population. (b)(3) 10 U.S.

SUPPLY PROBLEMS: A COSVN-originated document seized 1 Nov states that VC would have to depend on local populace for provisions -- owing to destruction of supply depots and to limitation on purchases/transp stemming from control of LOCs by Allied forces. Level of issuing element (COSVN's Forward Supply Council) suggests problem not strictly localized one. (6)

NVA 304 DIV: (b)(3) 10 U.S.C. 424:3.3 its southward deployment from Thanh
Hoa Prov since about 1 Nov. (Est strength, 8,000-10,000; normally composed of 3 inf/1 arty regts.) On 12 Nov, div was obs using signal plan similar to that of 324B Div during its May 66 move to DMZ area. As of 22 Nov, div hqs and 1 prob inf regt loc vic Vinh, with a 2d inf regt near NVN-Laos border (about where NVN Rte 137 becomes Laos Rte 912). Other div elements presently unloc.
Eventual destination of div unk -- could be DMZ area (where, meantime, there are indications of a renewal of acty around Con Thien), or Laos (with entry into SVN further south). (Although no assoc has been established with 304 Div, it is noted that 31st Regt of NVA 341 Div left NVN prob early Nov and by 22 Nov was in Laos, some 40 mi N of Ashau Valley; together, these entities could make up a 4- to 5-regt force for poss use (1) in atks on such tgts as Khe Sanh, Hue, Quang Tri City, or Da Nang, or (2) as the western pincher in a move to isolate DMZ area.)

REPORTED MOVEMENT OF AA GUNS: Based on villager reports, en may have (again) begun deployment of AA wpns from Mu Gia Pass area southward into Laos. (En normally withdraws some AA wpns/trps into NVN during southwest monsoon season, now over.) Since late Oct, hvy truck tfc has been reported moving south on Rtes 912, 911, 91 toward Tchepone. En aggressively used AA wpns last year to keep his supply rtes open to NVA units in Laos and SVN in face of air interdiction program and will prob do so again. (While connection may be only tangential, it is noted that on 23 Nov a hqs in Tchepone made first contact ever noted with a unit -- NVA 803 Regt -- subord to DMZ Front.)
