The major PAVN headquarters which emerged in early January 1968 has been identified as a subordinate of PAVN High Command (HC) and was located on 6 January in Laos at 16-55N 146-26E (XD 525700), approximately 50 km northwest of Khe Sanh. The entity appeared in communications as early as 29 November 1967 on the HC network serving major headquarters located in or associated with South Vietnam. It passes messages characteristic of Military Region (MR) 4 (NVN) and DMZ entities. The major PAVN headquarters presently communicates with:

- HC
- HA, MR 4 (NVN)
- HA, DMZ Front
- The detached element of DMZ Front
- HA, possible 325C Division
- HA, probable 328th Division
- HA, 883rd Regiment
- Probable HA, 559th Transportation Group
- General Directorate of Rear Services Forward
- Two unidentified terminals.

One of the unidentified terminals was located near Khe Sanh at 16-44N 146-31E (XD 613500) on 16 January and is a subordinate of the DMZ Front; the other is associated with the probable 328th Division. Additionally, there is tentative evidence of attempted communications between the major PAVN headquarters and HA, 90th Regiment.
